

ARE YOU LOOKING FOR TROUBLE?

Save yourself some trouble, here are **FOUR** things to consider as you're doing your hockey board homework:

Seibu Arena
Tokyo, Japan

- 1 MECHANICALLY-FASTENED CONSTRUCTION,** for superior strength and flexibility upon impact, as compared to old-style welded frame systems.
- 2 CLEAR ANODIZE FINISH,** for an outstanding finishing touch to your arena, protecting your investment, year after year, well beyond warranty.
- 3 ROBOTIC MANUFACTURING,** for precision and consistency, and boards that truly are built to last – just the way you spec'd them!
- 4 SPORT SYSTEMS UNLIMITED,** for Anodized Aluminum Hockey Boards, and the best Customer Service in the industry since 1996.

Look around and compare. We think you'll agree, no other company in the world does what we do better than we do it. Contact us for more details, including a long, long list of great references. **It's no trouble!**

Excellence since 1996
